

Idaho Geospatial Council – Executive Committee (IGC-EC)

SEPTEMBER 17, 2020

Minutes

▶ *July 16, 2020*

Brad Little ✓
@GovernorLittle

Today I signed the official "Take 10 Minutes to take the 2020 Census on September 10th" proclamation. Visit [2020Census.gov](https://2020census.gov) to complete the census. It only takes 10 minutes! #2020Census

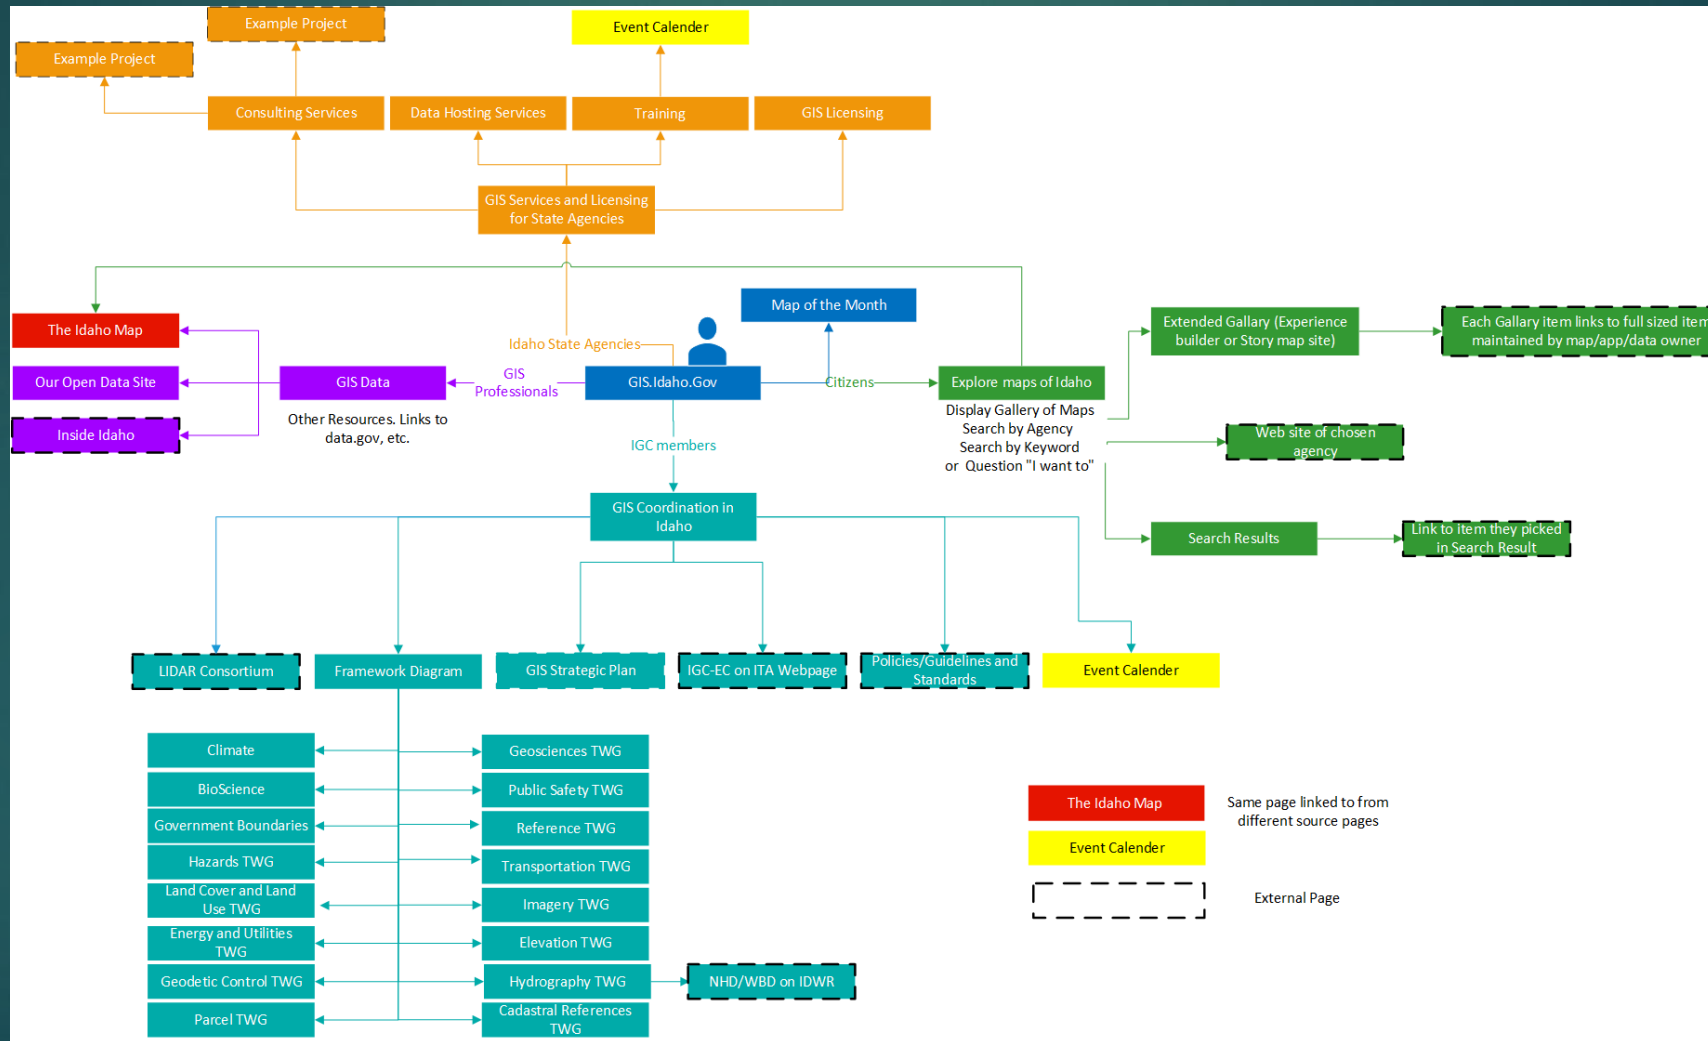

Census Updates:

- Still time to respond September 30th is the last day!
- 68.9% Idahoans have self responded (9/14/2020)
- 30.5% NRFU
- <https://2020census.gov/en/responsive-rates.html>

WEBSITE
REVAMP/UPDATE

GIS.IDAHO.GOV

What?

Why?

- ▶ Modernize design and comply with state approved website templates
- ▶ Improve UX, site organization, and flow
- ▶ Remove outdated content and update with new/current information
- ▶ Improve visibility and accessibility to...
 - ▶ existing open data portals
 - ▶ TWG activities and documentation
 - ▶ State Agency GIS services and licensing
 - ▶ State GIS coordination for standards, leadership, frameworks, policies, etc.

How?

- ▶ TWG Pages

- ▶ Currently getting feedback from TWG chairs on changes to existing pages
- ▶ Updating content, graphics, links, historical minutes, etc.
- ▶ For those TWGs without chairs, we will review and update as is reasonable

- ▶ Other site pages

- ▶ Being reviewed and content checked for temporal relevance and accuracy
- ▶ Existing links to third party sites are being verified that they are still working
 - ▶ New and relevant third-party site links could be added (any proposals?)

How? - continued

- ▶ Setting up development/test site that can be used for design, development, review, and testing
 - ▶ Just was made available last week
- ▶ Once the pages are drafted, we will need people to review and test
 - ▶ Will need to see how the site can be shared out for testing

When?

- ▶ Would like to target having new site ready to be published out to the world by mid-November if possible...
 - ▶ Will depend on getting requested updates/changes from content owners
 - ▶ Will also depend on being able to get testers involved and test-identified issues documented and resolved in a timely manner
- ▶ ...but no later than pre-holidays in December

IGC-EC STRATEGIC PLAN GOAL #1

Subcommittee Update 9/17/20

GOAL:

Create/Support a robust geospatial clearinghouse for sharing current and historical TIM Framework and other authoritative layers.

Objective:

Seek and secure funding and staffing needed for an official TIM geospatial data clearinghouse

Strategy:

Have a designated clearinghouse administrator who can reach out and support TIM/Authoritative data stewards, review datasets and documentation and help keep them current, and maintain the clearinghouse website; acquire and maintain dedicated funding for this position.

State Open Data vs INSIDE:

State Open Data Portal =

Authoritative State Agency Data & TIM Framework Layers

INSIDE Idaho =

Authoritative data from any agency/org in Idaho & TIM
Framework Layers

Outreach:

- Wilma & Mike meet with State Agency GISers
 - *Talked about State Portal & INSIDE*
- Wilma is reaching out to possible TIM data authorities
- Mike looking into resources – infrastructure and/or staff
- Contacting other local govt agencies and organizations
- INSIDE Idaho show-and-tell @ IGC Mtg (Oct. 13, 1-2:30 PM)
- Authoring Awesome AGOL Content @ IGC Mtg

GOAL #2 UPDATE

GIS STRATEGIC PLAN

The background of the slide is dark gray with numerous realistic water droplets of various sizes scattered across it. Some droplets are in sharp focus, showing highlights and reflections, while others are blurred in the background.

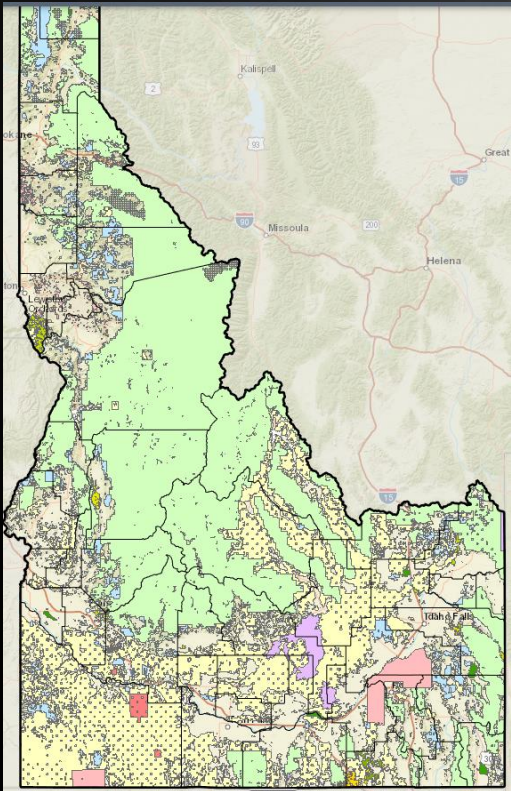

GOAL 2: *PROVIDE BEST AVAILABLE STATEWIDE TIM FRAMEWORK DATA LAYERS*

Objective:

Increase the number of officially recognized TIM Framework data layers and create a recognizable TIM “brand”

WHAT DOES “TIM” STAND FOR?

The Idaho Map

According to the GIS Strategic Plan, The Idaho Map:

- Contains...16 framework layers, which encompasses the geospatial “Framework data layers” defined by the federal government and the additional layers defined by the Idaho GIS community
- Is an output of the Idaho Geospatial Council (IGC) working collaboratively toward realizing TIM

STRATEGY

AS DESCRIBED IN THE STRATEGIC PLAN

Create	Reinvigorate	Start	Host
Create an inventory of Framework data layers currently available from metadata	Reinvigorate the Idaho Data Framework Leadership Team [and fill empty chairperson seats...]	Start with the top 10 (as defined by current survey results) and work with the associated agencies/TWGs to get the data layers nominated – proposed to host TIM nomination workshops and TIM metadata workshops	Host the Framework data layers in the geospatial data clearinghouse and brand as TIM

NEXT STEPS

- RE-ENGAGE WITH TWG'S THAT HAVE NOT BEEN ACTIVE IN THE PAST YEAR OR TWO
- FOR TWG'S THAT DO NOT CURRENTLY HAVE A CHAIR AND/OR MEMBERS...
 - INVITE GIS SME'S TO BECOME A CHAIRPERSON AND TO WORK WITH GIO OFFICE TO GET THEIR TWG FUNCTIONING AND STAYING ACTIVE
- FOR ACTIVE TWG'S
 - ASSESS CURRENT PROGRESS TOWARD GETTING TIM LAYERS DEFINED AND APPROVED
 - WORK ON DEFINING WHAT IS MISSING (DEFICIENCIES) AND HOW TO ADDRESS THEM
 - DEFINE POTENTIAL TIMELINES FOR GETTING AUTHORITATIVE TIM LAYERS PUBLISHED

Goal 3 Subcommittee

GOAL 3: Improve geospatial data quality.

Objective: Improve the quality and currentness of publicly available GIS data through education and have data stewards publish their geospatial data as Open Geospatial Consortium (OGC) services (WMS, WFS, WCS, etc.).

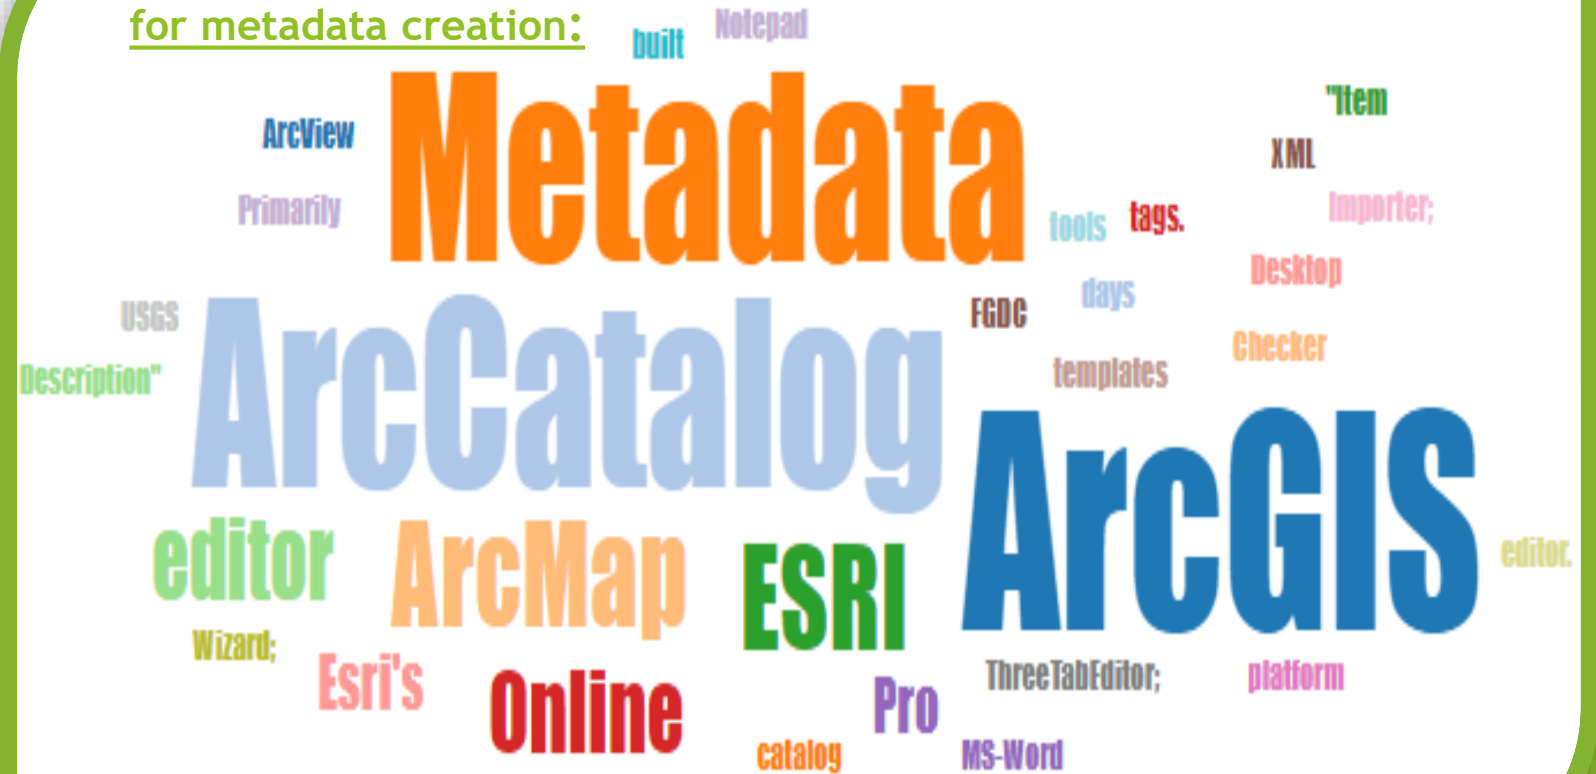

Strategy: Increase education on and encouragement to follow State GIS policies and standards; education on proper metadata; education on transition to web services.

- Education and encouragement to follow State GIS Policies and Standards
- Education on proper metadata
- Education on the transition to web services

Metadata Survey

- ▶ 30 Participants
- ▶ Mostly GIS professionals
- ▶ High percentage of participants with 5+ years experience

Some of the tools used
for metadata creation:

Have you ever written metadata?

Did you know that the State has a metadata standard?

How are you sharing your data? (GOAL 4 Overlap)

Do all your public facing datasets have FGDC compliant metadata?

If no, why not?

Lack of folks to do it.

➡ FGDC too strict.

They have Esri descriptions

➡ Lazy, not enough time to complete.

Lack in knowledge on FGDC reqs.

➡ I don't know.

Are you reluctant to complete metadata?

If no, why?

Lack of training:

➡ 16.67%

Lack of time:

➡ 26.67%

Don't see why I should:

➡ 6.67%

Lack of tools:

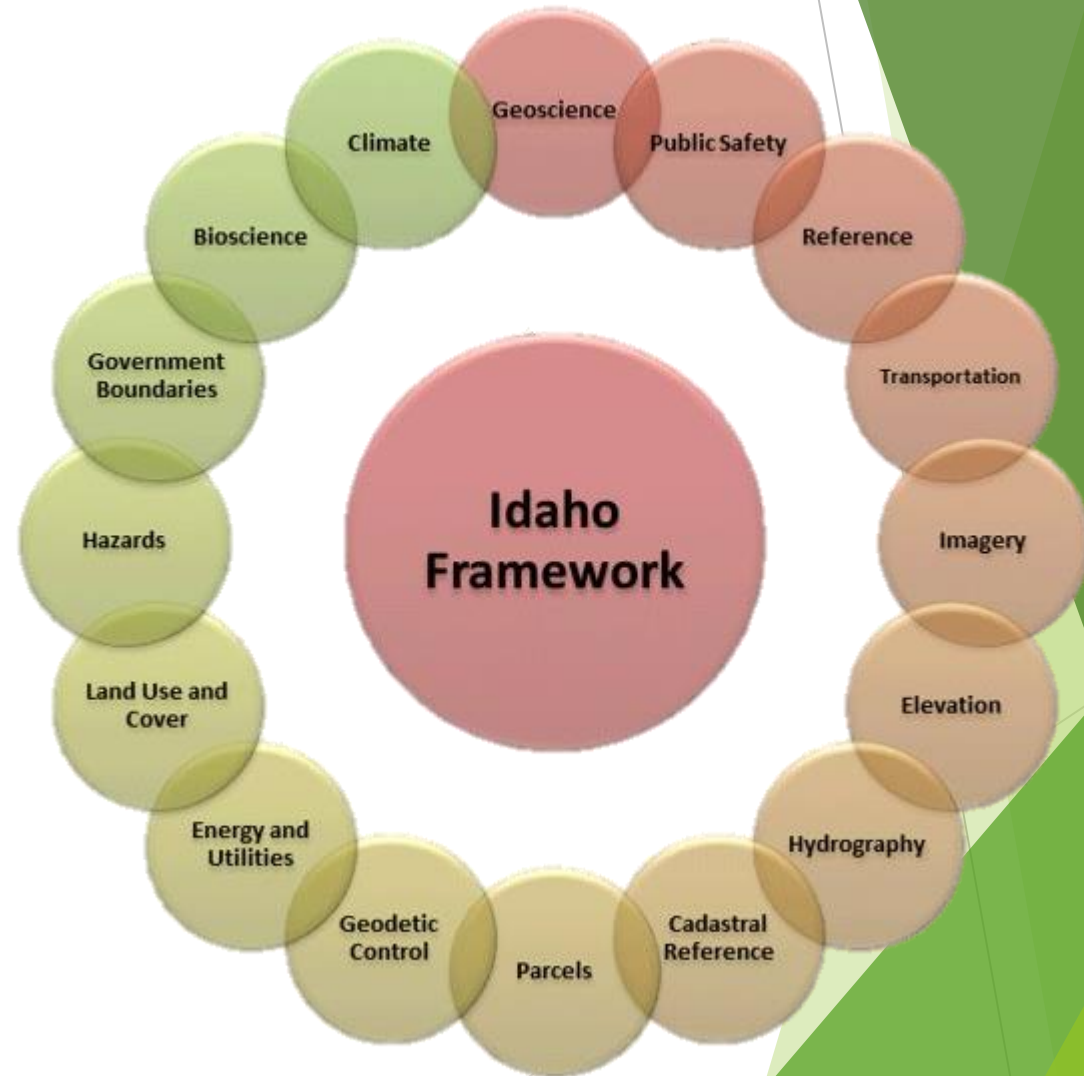

➡ 10.00%

Other:

➡ 0.00%

Goal 3 Moving forward

- ▶ Send out survey to college participants
- ▶ Utilizing ISU's Tech Talks to complete a web series on metadata
- ▶ Possible offerings and use of curriculum at multiple colleges
- ▶ Working with other subcommittees to achieve goals
 - ▶ Lots of overlap!!!!

TechTalk Metadata Series coming soon!

1. What is Metadata and Why Does it Matter?

► October 22, 2020. Wilma Robertson

2. Editing Metadata in ArcMap and ArcPro

► November 12, 2020. Keith Weber and Sydney Lewis

3. Sharing Metadata - the Bigger Picture

► December 3, 2020. Pam Bond

Goal 4 Subcommittee (GIS)

Overview of data sharing applications

Nominations, Standards, exchanges Oh My...

A DISCUSSION ABOUT WHAT
IS REQUIRED, WHAT SHOULD
BE REQUIRED AND HOW TO
SPEED UP THE IDAHO MAP

What we have

Standards

- Framework **standard** for Emergency Service Zones
- Control Point **Standard**
- Idaho Land Cover dataset **standard**
- Soils Dataset **Standard**

Data Exchange

- Structures and Landmarks **Data Exchange**
- Parcel **Data Exchange**
- Hydrography **Data Exchange Standard**

Nominations

- Trails **Nomination**

What's in it?

	1. What is the Data schema	2. Data Quality Requirements	3. Who is the data steward?	4. How is data disseminated?
Framework standard for Emergency Service Zones	X	X		
Control Point Standard	X	X	X	
Idaho Land Cover dataset standard		X		
Soils Dataset Standard		X	X	X
Structures and Landmarks Data Exchange	X	X		
Parcel Data Exchange	X	X		
Hydrography Data Exchange Standard	X	X		
Trails Nomination			X	X

→ “Stewardship set forth in charter and related documents”

→ Refers to **stewardship plan**. Link broken

G350 for Guidance...

III. GUIDELINE

The Chair of a TWG or any member of IGC can nominate a publication dataset to be recognized as a TIM Framework Dataset by submitting the approved nomination form to the Chair of the IGC-EC.

The Chair of the IGC-EC will then send the nomination to the appropriate Framework Data Theme TWG for review and recommendation. If that TWG is not currently active, the Chair of the IGC-EC will arrange a TWG meeting for that purpose. A notice will be sent via the Geotech Listserve that a dataset is being considered for recognition as a TIM Dataset. The agenda for the next IGC-EC will include a discussion to approve/decline the nomination.

The Characteristics of a Recognized Framework Dataset include:

- a) Published by a Trusted Source.
- b) Preferably at 1:24000 scale or more refined.
- c) Preferably with statewide coverage or a methodology for developing a statewide coverage.
- d) Documentation of authoritative source(s) and each source's legal authority.
- e) Publication Data must be in an approved and defined data exchange format. For approved standards, see <http://gis.idaho.gov/portal/coordination/standards.html>
- f) Preferably with a tie or input into a nationally published dataset.
- g) Complete metadata including all process steps and references to agreements that result in the Publication Data.
- h) Detailed maintenance /update schedule for keeping the publication data as current as possible. Minimum preferred updates – annually.

What's in a standard?

A lot!

Living Atlas Layers

Jeff Cook, Dept. of Parks & Recreation
Jan Cunningham, Esri

ArcGIS Living Atlas Directions

Go to <https://livingatlas.arcgis.com/en/browse>

Log in with your user name

Go to the Contribute Tab and Click

Scroll down a little to the Help Build Living Atlas, and then click on the Contribute link

It will then open your content on ArcGIS Online that are eligible for Living Atlas. Fix any issues to improve your score (should be at least 80 or above) and then click to nominate your item.

You will hear back in a few weeks on whether or not your items was accepted.

Other Business

- ✓ Fall IGC Meeting
- ✓ NWGIS Conference – Questions for Panel Discussion
- ✓ Starting process to include LiDAR Service/ MCPD Control Points in TIM
- ✓ Saying Goodbye to Carolina...
